

LEITÃO & IRMÃO

JOALHEIROS

Ring Size

Print this sheet and put a ring above one of the circles to know the ring size desired.
The inner circle of the ring must match one of the circles in the printed sheet.

Important: the printing should be set to real size, so the option "Fit to page"
or any other resizing options in the print settings must be disabled.

To check if the print scale is correct, the above lines should measure 20 mm or 2 inches.
